

ACATIS AKTIEN GLOBAL FONDS

AS OF: MAY 31, 2018

Global equity fund, aggressive

MARKET COMMENTARY

May was a very good month for the fund. The price for a share certificate rose by 5.6%, which means that for the current year, the fund is once again doing very well and is well ahead of its benchmark. Canadian contact lens manufacturer Valeant (+27.7%), American laser manufacturer IPG Photonics (+20.1%), Apple (+18.5%), gene sequencing manufacturer Illumina (+17.6%) and separator film manufacturer W-Scope (+15.5%) dominated the performance. But the greatest contribution (+0.6%) weighting-wise came from Centene, the American health insurer. It is followed by Apple (also 0.6%). Warren Buffett recently increased his position in this company. He is waiting for larger share buy-backs that could continue to drive up the share price. The biggest losers in May were our turnaround candidates Suruga Bank, Ceconomy, Intrum Justitia and Banca Monte dei Paschi.

INVESTMENT OBJECTIVE AND - PHILOSOPHY

The fund invests mainly in companies that have been chosen based upon traditional stock analysis (fundamental "bottom-up" analysis of individual stocks). The selection adheres to classical shareholder value aspects. The fund invests in companies that are undervalued according to at least one of the following criteria: undervalued net asset value, high earnings power (that is not reflected in the stock price), above-average dividend yield, neglected industries or countries, overrated crises. Important factors in making a decision are the transparency of the company's accounting and its corporate governance. A pre-selection of stocks is made through quantitative screening. The decision to buy is then made after a thorough analysis of the available information on each company.
