

ACATIS AKTIEN GLOBAL FONDS Class D (CHF)

AS OF: JANUARY 31, 2019

Global equity fund, aggressive, Swiss franc hedge

MARKET COMMENTARY

With a performance of 8.5%, the tranche quickly made up the entire negative performance of 2018 in the month of January. Most investors are likely not familiar with the top performers during the month: Tongda (Smartphone housing) gained 44.4%, Bank OZK (formerly Bank of the Ozarks) gained 35.0%, Ceconomy (also known as Saturn-Hansa) grew by 31.7% and Bausch (the contact lens company previously known as Valeant) grew by 30.3%. Evidently these shares were sold before Christmas for window dressing purposes and were then repurchased in January. The highest absolute performance contributions came from Intrum and Sartorius with 0.5% each, and Brookfield, Bank OZK, Bausch and Samsung with 0.4% each. No clear pattern can be detected within the loser group: BYD, Illumina and Novozymes were particularly weak in January. Apple and Ceconomy are no longer in the portfolio. Instead, we bought HP as a supplier for 3D printers.

INVESTMENT OBJECTIVE AND - PHILOSOPHY

The fund invests mainly in companies that have been chosen based upon traditional stock analysis (fundamental "bottom-up" analysis of individual stocks). The selection adheres to classical shareholder value aspects. The fund invests in companies that are undervalued according to at least one of the following criteria: undervalued net asset value, high earnings power (that is not reflected in the stock price), above-average dividend yield, neglected industries or countries, overrated crises. Important factors in making a decision are the transparency of the company's accounting and its corporate governance. A pre-selection of stocks is made through quantitative screening. The decision to buy is then made after a thorough analysis of the available information on each company.
