

# ACATIS AKTIEN GLOBAL FONDS

AS OF: AUGUST 31, 2018

## Global equity fund, aggressive

### MARKET COMMENTARY

After a pleasant gain of 1.4% in August, the fund nevertheless fell slightly behind the benchmark. The top performers were well-known names such as Apple (+20.7%), Wirecard (+19.7%), Centene (+12.5%), Sartorius (+12.5%) and Rege-neron (+11.1%). More interesting are the non-performers, such as the Japanese Suruga Bank (-38.9%), which we purchased on account of a credit scandal and that has seen a precipitous decline since our purchase. At this time, the price to book value ratio has reached 0.4. But the profit estimates of analysts continue to be positive. The current price-earnings-ratio is less than 6. Our mistake - we underestimated how long banks take to work through a crisis. The share price of Japanese W-Scope, a battery supplier, fell by 35.1%. Here too, we believe that it is only a matter of time until demand for W-Scope separators will exceed supply. We could say similar things about other non-performers in the portfolio, as there is no evidence of any fundamental crises at any one of them.

### INVESTMENT OBJECTIVE AND - PHILOSOPHY

The fund invests mainly in companies that have been chosen based upon traditional stock analysis (fundamental "bottom-up" analysis of individual stocks). The selection adheres to classical shareholder value aspects. The fund invests in companies that are undervalued according to at least one of the following criteria: undervalued net asset value, high earnings power (that is not reflected in the stock price), above-average dividend yield, neglected industries or countries, overrated crises. Important factors in making a decision are the transparency of the company's accounting and its corporate governance. A pre-selection of stocks is made through quantitative screening. The decision to buy is then made after a thorough analysis of the available information on each company.
