

ACATIS GANÉ VALUE EVENT FONDS

AS OF: JULY 31, 2018

Global balanced fund, flexible

MARKET COMMENTARY

The fund price improved by 1.7% in July. It has gained 4.3% since the start of the year. In the reporting month, Grenke announced a 23% increase in profits for the first six months of 2018. With this announcement, the leasing specialist confirmed its dynamic growth rate, although it initially maintained the annual forecast for the increase in profits with a range of 16% to 22%. We expect that the budget figures will be increased after the end of the third quarter. LMVH and Microsoft impressed with 28% and 10% higher results for the current year. On the other hand, brewery group AB InBev missed market expectations despite a 7% increase in the operating result; however, the company held out the prospect of improved developments in the second half of the year. Berkshire Hathaway removed the buy-back threshold for the existing share buy-back programme. It had restricted the purchase of own shares to a face value of 120% of the book value.

INVESTMENT OBJECTIVE AND - PHILOSOPHY

In the selection of the fund's positions the philosophy of value investing is combined with an "event-driven value" approach. The aim is to reduce fundamental risks in the selection of the fund's positions by focusing on companies with strong business quality. By business quality the management means business models that stand out for their sustainability, the ability to defend an existing competitive advantage and the capacity to generate high free cash flows. The portfolio is diversified through various types of event and different holding periods. Interest paper and bonds can be added to the portfolio.
